

MASTER'S FOUNDATION

GOD'S HEART. OUR HANDS. UKRAINE'S HOPE.

A MESSAGE FROM OUR PRESIDENT

Dear Friends of Master's Foundation,

We have titled this edition of our newsletter "**Summer Camps: Where Joy Returns.**" After attending two of our camps in Ukraine this summer, I cannot think of a more fitting description.

The war continues to bring fear and uncertainty to families already weary from years of conflict. Yet at camp, I witnessed something very different. For several days, children were able to feel safe, to laugh, play, make new friends and simply be children again. Most importantly, they were reminded that **God loves them and has not forgotten them.....At camp, joy returns.**

Recently, we brought a team from Canada together with our Ukrainian partners for a special retreat. It was an incredible time of unity, refreshment and encouragement. We were especially grateful to have **Gene Clarke, former President of Master's Foundation**, join us. Gene shared from his many years of experience and spoke personally into the lives of our partners, encouraging and strengthening them in the work God has called them to do. I came away deeply grateful for these faithful partners and even more convinced of the importance of standing together as we serve the people of Ukraine.

As the needs continue to grow, we are committed to using the resources entrusted to us wisely. We are reducing administrative costs, including moving into a smaller office that will provide significant monthly savings and allow more resources to be directed toward ministry. **Our address remains the same, but our suite number is changing from Suite 4 to Suite 6.**

We are grateful for every person who makes this work possible. As you consider your giving, would you prayerfully consider a special gift or becoming a monthly supporter? Your partnership helps us continue bringing practical assistance, encouragement and hope to children and families across Ukraine.

For more than forty years, God has faithfully worked through Master's Foundation and friends like you. **We believe He is not finished with us, with this ministry or with Ukraine.**

Thank you for praying, giving and walking alongside us. Together, we can continue creating places where fear gives way to laughter and **joy returns.**

With gratitude and hope,

Walter Semeniuk
President
Masters Foundation
